Professional Summary

Mobile App Developer with experience in designing, developing, and deploying cross-platform mobile applications using React Native. Demonstrated expertise in building scalable apps with seamless user experiences, API integrations, and real-time data management. Proficient in modern web technologies like React.js and Next.js. Passionate about clean code, performance optimization, and collaborative development environments.

Skills

- Technical Skills: React Native, JavaScript, HTML, CSS, Redux, React.js, Next.js
- Development Tools: Git, Google Play Store, Firebase, REST APIs
- Soft Skills: Team Collaboration, Effective Communication, Time Management

Experience

- **Digi Interface Pvt Ltd**   Dec 2022 - Present
  Jr. Mobile App Developer
  Roles and Responsibilities:
    - Built robust, scalable mobile applications using React Native for Android and iOS platforms.
    - Developed reusable, modular JavaScript components to improve code consistency and reduce duplication.
    - Integrated third-party APIs and real-time data services for dynamic content rendering.
    - Conducted performance profiling and debugging to optimize app responsiveness and memory usage.
    - Published and maintained multiple apps on Google Play Store, managing the full deployment lifecycle.
    - Implemented secure user authentication, push notifications, and offline data handling.
    - Worked closely with UI/UX teams to bring wireframes to life with pixel-perfect precision.
    - Contributed to responsive web development using React.js and Next.js for client dashboards and admin panels.

- **Companion**   Aug 2022 - Dec 2022
  Mobile App Developer Intern
  Roles and Responsibilties:-
    - Worked on UI implementation based on Figma designs and ensured consistency across screens.
    - Performed end-to-end testing to ensure app quality across devices and OS versions.
    - Supported backend API integration and managed local data storage using AsyncStorage.
    - Engaged in daily sprint meetings and learned code review best practice

Projects

- **RealEstate Verified Leads:** A platform to streamline and manage verified property leads for brokers and agents with real-time status updates and smart filtering.
- **Oudbyidol:** An e-commerce app for perfume shopping, including features like product reviews, wishlist, smart search, and smooth checkout experience.
